Our Application is intended to be for people who want to learn about stocks through hands on experience but don't have the necessary time for a financial stock market fantasy league.

# Why A Game?

- Accessibility - Application on a smartphone
- Having a game makes learning more interactive and less dull
- Quick and Realistic
- Competition amongst friends will allow for a more thrilling environment in which a player can experience the sensation of making it big or losing it all!

# Main Function

- 4 Players - 2 minutes per turn.
- Users can sell/buy/etc stocks on each turn by analyzing stock information.
- Stock information is based on past real world stock information, with changed stock names.
- Every turn indicates a passage of a week's time.
- The user with the highest capital at the end of the 15th is the winner.

# Going Forward

- Expanding and implementing further features along with multiplayer support
- Private Game Mode
- Achievement System
- Event System
- Chat System
- Stock Trend Data
- Social Media Integration
